COMMUNITY GOVERNMENT OF WHATÌ

INVITATION TO TENDER

WHATÌ WATER TREATMENT PLANT BACKUP GENERATOR PROJECT

The Community Government of Whatì invites qualified contractors to submit sealed electronic tenders for the supply, installation, testing, and commissioning of a new standby backup generator system at the Whatì Water Treatment Plant in Whatì, Northwest Territories.

The project includes the construction and installation of:

- A new 20 kW diesel standby generator complete with weatherproof acoustic enclosure
- Automatic Transfer Switch (ATS)
- Fuel storage and fuel fill system
- Electrical upgrades within the existing Water Treatment Plant
- Generator concrete foundation and protective bollards
- Underground conduit and power/control cabling
- Generator monitoring, alarms, testing, commissioning, training, and warranty services

Tender Closing

Electronic tenders will be received until:

4:00 PM Pacific Time (PCT)
December 14, 2026

Late submissions will not be accepted.

Contract Documents

Tender documents will be available beginning:

November 23, 2026

Interested contractors may obtain digital copies of the Contract Documents and Drawings by contacting the Community Government of Whatì.

Site Visit

A bidders' site visit may be arranged upon request.

Proponents wishing to attend must register their interest by email no later than:

November 30, 2026

Interested parties will be notified of the site visit date after the registration deadline.

Contractor Qualifications

The work is intended for experienced electrical and general contractors with demonstrated expertise in:

- Standby power generation systems
- Electrical infrastructure upgrades
- Remote northern construction projects
- Generator installation, commissioning, and maintenance services

The successful contractor will be required to provide Performance and Labour & Material Payment Bonds and maintain insurance coverage as specified in the Contract Documents.

Project Schedule

The successful contractor will be required to achieve:

Substantial Completion by September 30, 2027
