As a key member of the senior management team, the **Director of Public Works & Services** plays a pivotal role in the Town's Day-to day operations and planning. This role comes with numerous challenges and responsibilities and offers a meaningful and impactful career in municipal management, where you can contribute to the betterment of the community. You will be challenged with managing the Town's infrastructure efficiently, ensuring it meets the needs of the community. Collaborating with other Town departments for problem solving and project implementation will be essential.

Managing budgets is a significant part of the position requiring careful planning and allocation of resources to meet the Town's infrastructure needs. As well, you will be responsible for providing regular updates and reports to the Council, informing them about public works matters and seeking approval for projects and budgets.

In your role as Director of Public Works & Engineering Services, you will directly impact the quality of life for Town residents by ensuring safe and functional infrastructure.

Qualifications:

The Director of Public Works & Services would normally attain the required knowledge, skills and attitudes through completion of post-secondary education in a related engineering, public administration or business discipline and have five years of supervisory and leadership experience, preferably in a civil/municipal context.

This senior management position offers a comprehensive benefits package, pension plan, and a salary between \$132k - \$182K, depending on experience.

If you are interested in applying on this position, please submit a detailed resume and cover letter to the Town of Hay River in person or via email.
